### DEPOSITORS MAKING A HARD RUN ON THE ST. LOUIS TRUSTS.

Banks are Compelled to Seek Relief  
by Demanding the Thirty and  
Sixty Day Notice.

ST. LOUIS, Mo., October 28.—Long before 10 o'clock, the hour of opening, the lines of depositors stretched away from the closed doors of the Missouri Valley Trust Company, the Lincoln Trust Company, the Mercantile Trust Company and the Missouri Trust Company. Small crowds were assembled before the doors of the other savings institutions nearby. It was observed that most of those in line were working people, and many of them women, whose savings were not heavy.

Owing to the action taken last night by the officials of the eight trust companies doing business in St. Louis, requiring thirty and sixty days' notice of intention to withdraw funds, depositors were not able to get any money. All they could do was to declare their intention of withdrawing their deposits at the end of the time taken advantage of by the companies under their rules. The trust companies also decided not to pay certificates of deposit before maturity.

**GREAT CROWD.**  
The greatest crowd was before the doors of the Mercantile Trust Company. Locust and Eighth streets were jammed for a distance of several hundred feet and all efforts to keep them clear were practically abandoned, while the police directed their efforts chiefly toward maintaining some degree of order at the doors.

At 9 o'clock the doors were opened and the crowd surged in with a force that swept the lines of police and bank employees formed to preserve a regular line to the windows of the paying teller of the time and open accounts. Festus J. Wade, president of the Mercantile Trust Company, mounted a chair and made an announcement that unless the depositors formed in line they would be ejected from the building. This announcement had the desired effect and some semblance of order was restored.

When as many persons as could be accommodated at one time in the banking rooms had formed in the two lines, further admission was refused until some of the first-comers had left by a separate entrance; then others were admitted and forced to keep in line and leave as soon as they had transacted their business.

**POLICE ARE HELPLESS.**  
By 10 o'clock the crowd around the doors had increased to such an extent that the police were totally unable to control it, and the officers stationed at the doors were swept away from their stations almost as rapidly as they could regain them.

Women, who, as on Tuesday, constituted a large percentage of the crowd, were crushed in the jam, and in the struggle their dresses were torn and their hats knocked off.

The police, in trying to handle the crowd, pushed many of them into the gutter and in several instances personal fights were averted only by interference of cooler heads.

At the various institutions named, the officials stated to the Associated Press that current accounts are being relieved and paid out as usual. The early crowds which thronged the doors of the bank gradually thinned out, many of the savings depositors taking their bank notices of withdrawal home. Officers of the different institutions made reassuring speeches to the depositors before their doors and this helped to send them away. The arrival of several boxes of gold and silver in express wagons guarded by armed messengers seemed to restore a degree of confidence to the crowd before the Mercantile Trust Company building.

### CATTLE GOING BLIND AS A RESULT OF SERUM TEST.

BERKELEY, October 28.—Several months ago the University of California professors inoculated with rabies serum the squirrels which infested the grain fields in Contra Costa county.

President Walsh, of the Missouri Valley Trust Company, stated that he believed that the excitement was about over.

**MAKES A STATEMENT.**  
Henry M. Meier, vice president of the Missouri Trust Company, made this statement today:  
"Our institution has money in abundance to meet demands of whatever nature. All of the banks and trust companies have sufficient funds to tide them over the present situation."

John E. Davis, second vice president of the Missouri Valley Trust Company, addressed the throng assembled there, saying:

"The anxiety expressed here is entirely unneeded for any without reason. All open accounts will be paid just as soon as they are presented here. Every other account will be paid just as soon as it falls due."

**DEPOSITORS GIVE NOTICE.**  
At one o'clock this afternoon there were nearly 400 depositors withdrawing daily balance accounts or giving notice of withdrawal of savings deposits at the Mercantile and Missouri Valley Trust Company. Many persons who withdraw their money early to-day deposited it later and in some instances new accounts were opened.

At the other trust companies the withdrawals were but little in excess of the normal. One effect of the withdrawals was observed at the City Hall in the great increase in the payment of taxes. This afternoon the usual crowds at the different trust companies offices had dwindled away and business seemed to have resumed normal way.

**DEMANDS FOR CASH.**  
NEW YORK, Oct. 28.—St. Louis continues to make demands on this center for cash. The sum of \$600,000 was sent by telegraphic transfer from the sub-treasury today and direct shipments of about the same amount were made by local banks last night.

No definite news regarding the situation in St. Louis is obtainable in authoritative quarters here, but bankers profess to believe that reports have been much exaggerated. Private advice received by stock exchange houses agree that the substantial interests of St. Louis have the situation well in hand.

**EXPRESS DRIVERS GO ON STRIKE.**  
ST. LOUIS, Mo., Oct. 28.—Drivers of all St. Louis express companies to the number of 400 went on strike today because the demands of the Pacific Express Company's employees for a wage increase of ten per cent have not been granted.

Police were on duty around the express company buildings at the union depot, but there was no trouble of any kind and no express cars were delayed.

The express company officials say they have arranged to fill the strikers' places at once, and prompt delivery of goods is anticipated.

**FRIAR LANDS.**  
ROME, Oct. 28.—The latest reports received from the Vatican in relation to the Archbishop Galdi, the apostolic delegate in the Philippines, contain much more hopeful news regarding the prospects for a definite settlement of the question of the friars' lands in the Philippine Islands and also in connection with the financial point and on the subject of the friars leaving the Archipelago.

### THIEVES ARE COMING THIS WAY.

Livermore Officers Have  
Taken to the  
Road.

Expect to Land Bandits  
Who Have Been Stealing  
Horses.

LIVERMORE, October 28.—Town Marshal D. A. Smith and Constable G. S. Fitzgerald are camping out tonight somewhere on the Stockton road. It is not a camping trip for pleasure either, but the result of a telephone message from Sheriff Sibley of San Joaquin county to the effect that some bold horse-thieves who raided Stockton yesterday and today are supposed to be headed this way.

It appears that last night a team of spirited horses attached to a buggy was left by the owner tied to a hitching post in the Slough City, and when the owner got out of lodge meeting the team and buggy had disappeared.

Investigation disclosed the fact that they had been seen driving at a furious pace in a southwesterly direction on the French Camp road, and when they arrived at Ward place, which is about twenty miles from Stockton, they found one of the horses dying in the roadway.

Further investigation disclosed the fact that the best driving horse in the Ward stable had been also stolen. The officers kept up their pursuit until morning, but failed to overtake the thieves, and had not done so at a late hour this afternoon.

The excitement was increased about 1 p. m. yesterday when a horse and buggy was stolen from the court-house square on Hunter street in Stockton, presumably by a portion of the same gang.

Sheriff Sibley then enlisted the services of the Alameda county officers and if the horse thieves attempt to pass through Livermore Valley under cover of the darkness of night they will find they are liable to wear bracelets before morning.

San Joaquin horse thieves have not been very successful in the past in getting through Livermore, and it is hoped the present instance will not prove the exception to the rule.

**FIVE KILLED IN RIOT.**  
HILBAO, Spain, October 28.—During the fight which took place in the streets this afternoon, five strikers were killed and a large number were wounded.

The troops are guarding the banks and public buildings and are occupying strategic positions throughout the city, in order to prevent the massing of strikers.

**DEMAND PROTECTION.**  
HILBAO, Spain, October 28.—As a result of the strike situation the foreign consuls have demanded from the military authorities protection for the ships of their nationality now in port.

Serious fighting has occurred in the streets between troops and strikers. It was started by a rioter shooting from a window while an infantry regiment was passing. The soldiers thereupon charged the crowd. Many persons, including a captain, were wounded.

In yesterday's rioting a woman was killed and a score of people were wounded.

**BODY IN THE BAY.**  
HAYWARDS, October 28.—Peter Kay, of Hayward, found the body of an unknown man floating in the bay this morning off the San Francisco Salt Company's works, which are situated between Robert's Landing and Mills & Jones Company's landing. To all appearances the body has been in the water about three weeks. Kay tied it to a stake and hastened to this city where he notified Deputy Coroner Geary. The latter notified Coroner Mehnemann at Oakland and then left for the scene of the gruesome find.

### Denies She Accepted \$25,000 From Platt

Miss Mae Wood, who is reported to have threatened Senator Platt with a breach of promise suit, accords the idea that there has been a settlement with her or that Senator Platt has ended his marriage to avoid an interference of his plans to wed Mrs. Janeway on her account. Senator Platt does not deny the fact that he was friendly with Miss Wood. She says she did not accept \$25,000 to compromise her claim.

### FRACTURED SKULL.

SAN FRANCISCO, October 28.—While attempting to board a street car at Ellis and Webster streets this morning Edward Trefts fell and fractured his skull. He was carried to his home, where he died shortly afterward.

### WOULD-BE ASSASSINS ARE SHOT.

TIPLIS, Russia, Trans-Caucasia, Oct. 28.—Prince Galitzin, governor-general of the Caucasus, had a narrow escape from assassination today on the outskirts of the town. Three natives stabbed the governor-general thrice. They fled but were subsequently shot down by Cossacks.

Prince Galitzin was driving with his wife when the would-be assassins rushed upon the carriage, daggers in hands. Two seized the governor-general and attempted to drag him from the vehicle, while the third man inflicted two ugly wounds on his prince's head and a third cut on the hand.

A Cossack who was in attendance upon the prince threw himself upon the assailants. While a hand-to-hand fight was in progress, the carriage was driven off at a gallop. Ultimately the assailants fled, followed by a mounted guard of Cossacks who had hurried to the scene. The Cossacks chased the fugitives through the brush, firing constantly with their rifles. They killed one man instantly. The other

### DISASTROUS WRECK ON S. P. ROAD.

Three Men Killed in An  
Accident At  
Palisade.

Passenger No. 6 Ran Into  
a Work Train on  
Main Line.

OGDEN, Utah, October 28.—A disastrous wreck occurred last evening on the Southern Pacific, which resulted in the death of three men and the injury of three others.

Traffic on the road was delayed twelve hours.

The dead are:  
D. KING, timekeeper.  
FRANK WAGOUCHIE.  
T. JIMINESK, Japanese laborer.

The injured were:  
THOMAS MAY, fireman, arm injured.

ED SELDON, foreman of construction work, leg injured.

**UNKNOWN LADY PASSENGER.**  
slight bruises and shock.

The collision occurred between the second section of passenger train No. 6 and a work train.

The work train had been on a siding and let the first section of the passenger train pass.

The engineer of the work train claims that the first section carried no signals denoting a second section and the work train pulled onto the main line.

Three miles of Palisade, the collision occurred. Both engines were demolished.

Several of the laborers saved themselves by jumping.

### LAND FRAUDS ARE LAID BARE.

GOVERNMENT PAYING MUCH AT-  
TENTION TO COAST  
MATTERS.

WASHINGTON, October 28.—Secretary Hitchcock said today that the investigation which he has been making into land frauds on the Pacific Coast had been practically completed and he hoped to be able to present his report on them to the department of justice by the close of the present week.

"The report will not at present be made public," he said, "as that would defeat its end of justice."

He also refused to discuss the contents of the document, but confirmed the generally current rumor that there have been extensive efforts to defraud the public. He said, however, that bad as the condition is, it had been grossly exaggerated.

"It is absurd," he said, "to say that the frauds amount to \$15,000,000 or \$15,000,000 or anything like that sum. A million acres would be a large estimate of fraudulently entered lands, and the government price for land ranges from \$1.25 to \$2.50 per acre."

The secretary also said that while the investigation doubtless would involve some officials of the government, he had not indicated that members of the United States Senate are involved in the scandal.

### WINE AT THE LITTLE AFFAIR.

Mrs. Colvin Met Friends  
Who Robbed Her on  
Racetrack.

She Refuses to Swear to  
Warrant for Their Ar-  
rest for Larceny.

The marquise ring, the brooch and stick pin, the property of Mrs. C. L. Colvin, wife of the well-known attorney of this city, which disappeared last Thursday night while the owner was on a visit to a Mrs. James H. Borland of 510 Geary street, San Francisco, have not been returned. Mrs. Colvin is in seclusion but her husband declares that if the missing jewels are not forthcoming there will be criminal prosecution of the persons who were in Mrs. Colvin's company at the time they disappeared and who are suspected of having stolen them. She was a victim of knockout drops.

**PURPOSE OF VISIT.**  
Mrs. Colvin's purpose in visiting Mrs. Borland, was, it is claimed, to bring to this city, an elderly lady named Mrs. Moore, who is Mrs. Borland's mother. While in the Borland rooms, Mrs. Colvin was in company with Mrs. Borland, a man who styled himself "Dr. Heymans" and one D. Christopher. Mrs. Borland declares that she took possession of the brooch and stick pin as a matter of precaution when Mrs. Colvin became ill in the room and it became necessary to unfasten her dress.

**MRS. BORLAND ACCUSES CHRISTOPHER.**  
Later, she declares she went riding with Christopher to a road house and when she opened her pocket book to pay for some drinks, she discovered that the brooch and pin were missing. She says she accused Christopher of robbing her and searched him without, however, finding the jewelry.

**HEYMANS ALSO ACCUSED.**  
Mrs. Borland also asserts that when she left her room to go on the ride, Heymans remained there and at that time, the marquise ring was on Mrs. Colvin's finger and that if stolen at all, the ring must have been taken by Heymans.

**TALK OF REIMBURSING.**  
This allegation Heymans denies but alleges that he is willing to reimburse Mrs. Colvin for the loss of the ring.

Mrs. Borland is equally liberal in an offer to pay for the missing brooch and pin, but neither offer has thus far been made good.

Despite this offer to make restitution, the police have not received a satisfactory explanation from Mrs. Borland, as to why, instead of returning to her own apartments after her drive and the discovery that the gems were missing, in the road house, she went to the home of her sister, 1009

MANY HOUSES ARE ERECTED.

SANITARY INSPECTOR MAILLOT OF ALAMEDA MAKES PUBLIC STATISTICS.

ALAMEDA, October 28.—Sanitary Inspector Eugene C. Maillot has compiled and given to the public an interesting report, showing the number of houses built in this city during the time between January 1, 1888 and the present date. This record Mr. Maillot has found useful in his official duties. It shows that during the sixteen years, including the present, 2097 houses have been built in this city. During the present year there have been seventy dwellings erected, and the number will probably be increased materially before the year is ended.

The figures for 1888, 21; 1889, 123; 1890, 181; 1891, 258; 1892, 223; 1893, 185; 1894, 129; 1895, 165; 1896, 148; 1897, 116; 1898, 92; 1899, 62; 1900, 30; 1901, 73; 1902, 109; up to date 70. These figures seem to indicate that the number of houses put up in 1903 will exceed that for any previous year since 1887.

RETAIL DRIVERS WANT ALL STORES TO EMPLOY UNION DRIVERS.

At the meeting of the Retail Drivers' Union in California Hall last night, it was decided to have a special order of business next Tuesday evening, the matter of taking action against stores employing non-union drivers. The matter will be brought up before the district council of tomorrow night by the business agent of the union. A number of non-union drivers are willing to join the union but are afraid they will lose their jobs if they do. The business agent will make up a list of all non-union establishments, interview the proprietors, and if they refuse to sign the union agreement, place them on the unfair list. The initiation fee of the union is \$2.00 the next fifteen days to allow all to join as cheaply as possible. Afterwards it will be raised to \$5. Seven applications for membership were filed, two candidates were to have been initiated at the meeting, but they failed to find the hall, so they will be taken in with the other seven next Tuesday. Five applications will be acted on by the district council at its session this evening.

The following communication from the Federated Trades Council settles the misunderstanding with the Retail Clerks' union in regard to the classification of drivers and clerks.

"Following is the decision arrived at by this council in the matter referred to us by the Retail Clerks' Union, to wit: 'All retail clerks or retail drivers handling a horse and rig to deliver merchandise be classified as a retail driver. Any solicitor handling a horse and rig but who does not deliver merchandise, is classified as a retail clerk.'

"Resolving that this will satisfy all concerned, I am fraternally yours, Chas. W. Petry."

STABLEMEN.

Five applications were filed with the secretary at last night's meeting of the Stablemen's Union.

Manager Halliday, of the Co-operative Union Stable on Sixth street, opposite Harrison park, reported that the business had increased to such an extent that patrons could not be turned away.

The union decided to build a 24 foot addition onto the east side of the barn. A new roof will also be put on the present building.

BUILDING TRADES COUNCIL.

At the meeting of the Building Trades Council last night, the E. L. Blackman Coal and Lumber yard and warehouse on the corner of East Fourteenth street and the California Railway crossing, in Fruitvale, was declared unfair. The trustees employed there struck because the proprietors compelled them to board with him at 85 cents a day. The food the men declared, was most unsatisfactory. An Oakland employer of sewer diggers was also placed on the unfair list.

The salary of F. H. Pratt, secretary of the council, was raised 50 per cent.

BRICKLAYERS' SPECIAL MEETING.

There will be a special meeting of the Bricklayers' union in Kohler & Chase hall, Eleventh street and Broadway, this evening. The members will vote on the proposition made by the national organization to establish a death benefit fund.

LONGSHOREMEN'S CONVENTION.

The principal matters of discussion at the convention of the Pacific Coast branch of the Longshoremen's Association now being held at Tacoma, will be the question of the strengthening of the Pacific Coast Union and the arrangement of its work with a view to the extension of its scope. Also will be considered the matter of strengthening the local unions and of adjusting the present difficulties existing between the unions and the Pacific Coast Steamship Company against which the union has declared a boycott.

Many California delegates are not being represented by delegates at the convention, owing to the consideration of expense. However, a communication has been sent, expressing the sympathy and fellowship existing between the California union members and the convention and they wish to be considered as fully co-operating with the convention in all matters.

The local union will meet tomorrow evening in California hall, 1015 Clay street.

WANTS INFORMATION.

A letter has been received at the County Clerk's office from Hervey T. Crist, a St. Louis attorney asking for information in regard to the estate of William Garsbacher who is supposed to have died in Oakland in the year 1872. It is stated that he died owing large interests in a brewery, gold mines and a wagon factory.

The letter is as follows: "County Clerk, Oakland, Calif. Dear Sir: Will you kindly give me all the information you can in regard to the estate of William Garsbacher, deceased, who died at Oakland or in that vicinity about the year 1872, owning large interests in a brewery, gold mines, etc. Also owning a wagon factory and all other interests in real and personal property.

"Kindly look this matter up on the records and give me the information. Any other information you can give me concerning the estate of the above deceased will be greatly appreciated by yours very truly, Hervey T. Crist."

Search on the records gives no information concerning such an estate. So far as is shown there is no such name on the records for the years about that time.

RECOVERS HIS CLOCK.

Yesterday Charles Haslin had Charles Jacobson arrested for disturbing the peace, and the case went over until tomorrow for trial. Meantime Jacobson had a search warrant issued to recover a clock, which was found, brought into court this morning and turned over to its owner.

Some time ago Jacobson went to Alaska, leaving his wife with Mrs. Brooklyn, mother of Charles Haslin. During his absence Mrs. Jacobson died, and Jacobson says everything possessed by his wife was appropriated by Haslin and his mother. He cared most for the clock and instituted a search for it himself, finally finding it at the Fresno Hotel and demanding its return, which was refused and a war of words ensued which resulted in blows, in which Haslin got the worst of it and had Jacobson arrested. Detective Kite got the clock.

## DOWIE FAILS TO DRAW.

**ADDRESSES A SLIM AUDIENCE AT THE MORNING MEETING.**

NEW YORK, October 28.—John Alexander Dowie addressed a slim audience at the early service today on the "Eleventh Commandment," his own addition to the Decalogue, the wording being:

"Love Ye One Another."

Dowie said that he had come to New York because he loves the people of the city, but he said the people of New York did not love him because of the vicious and untrue attacks made on him by the newspapers. A "healing service" was held later in the day.

"We have visited nearly every house in New York and we could do it eight times in a year," he said, "if we take the churches ten years to do that."

Dowie has decided to end his campaign in New York one week earlier than originally planned. A conference of all the overseers was held today and it was formally voted to go back to Zion City next Monday. It is said that Dowie will remain some days after the "army" leaves.

## GRANTED A DIVORCE.

Judge Ogden this afternoon granted to Mrs. S. M. Stoddard a divorce from Edward Stoddard on the grounds of desertion. It is alleged that Stoddard deserted her in Buenos Ayres. They were married in 1885. Mrs. Stoddard resides at 1717 Thirteenth avenue in this city.

## HE KILLED FOR FAMILY REASONS.

**Interesting Testimony Being Given in Woodland Case.**

WOODLAND, Oct. 28.—The trial of L. A. Wells resumed this morning and several witnesses were examined by the prosecution. Dr. T. M. Dixon, of Knight's Landing, who examined the body of Charles Hodge soon after he was shot by Wells, testified that death resulted from a gunshot wound in the left breast.

Frank B. Edson, a storekeeper of Knight's Landing, testified that Hodge came into his store immediately after the shooting and expired in his (Edson's) arms. Coroner Kitchin, who held the inquest over the body of Hodge in Knight's Landing a few hours after the shooting, corroborated Dr. Dixon's testimony as to the wound in the breast. Constable Chambers of Knight's Landing, who arrested Wells after the shooting, on cross-examination, said that Wells appeared to be rational and wildly excited.

Wells made several statements to witnesses in which he admitted shooting Hodge, saying that he did it for family reasons and that he was sorry.

Andrew Wright, the next witness, was standing near Hodge when he was shot. He testified that Wells approached Hodge, presented a pistol at him, exclaiming: "I have got you now," and then fired. Bystanders made an attempt to grasp the revolver. This witness was fully corroborated by Charles Fitch.

## A PRETTY NAME.

A Nottinghamshire clergyman, in baptizing a baby, paused in the midst of the service to inquire the name of the infant, to which the mother, with a profound courtesy, replied:

"Shady, sir, if you please."

"Shady?" replied the minister. "Then it's a boy and you mean Shadrach, is it?"

"No, please your reverence, it's a girl!"

"And pray," asked the inquisitive pastor, "how happened you to call the child such a strange name?"

"Why, sir, responded the woman, "if you must know, our name is Bower, and my husband said as how he should like her to be called Shady, because Shady Bower sounds so pretty."

## Bound to Get Wet.

Professor Langley's erratic airship has subjected him to ridicule and even from friends he has received some unkind thrusts. One of these friends exhibited a newspaper, which had headed an account of the airship's descent into the Potomac river, "Alleged Sky-scraper Drops the River."

"As the airship did not want to travel on a level line," remarked the professor, "it was imperative to me whether it went up or down. The machine was bound to get wet in either case."

The friend now became curious. He would understand how a descent into the Potomac would wet the airship. But how could it strike water by sailing upward?

"Ah," chuckled the professor, with the glee of one about to get his revenge. "If the ship had continued upward it would eventually have struck the big dipper, now, wouldn't it?"

## ARMY MEN ACCUSED OF FRAUD.

**Sensation Promised in a Big Government Suit.**

FERGUS FALLS, Minn., October 28.—A sensation is promised in the big suit started January 8 last, by the United States against the Commonwealth Lumber Company, of which Lieutenant-Governor Jones is president, by the filing of an amended reply to an answer of the company in which it states in unequivocal terms that Captain Mercer of the Seventh Cavalry, who was at one time Indian agent at Leech Lake agency, and Daniel Sullivan, the acting superintendent of logs and logging, were in league with the company, and aided and abetted in cutting green timber and of neglecting their duty to the government.

## RUSSIAN MINISTER IN PARIS.

**MINISTER ARRIVES AND IS WELL RECEIVED BY OFFICIALS.**

PARIS, October 28.—Count Lamsdorff, the Russian foreign minister, arrived here today, accompanied by a numerous suite. M. Delcasse, the French minister for foreign affairs, was at the railroad station to extend a personal greeting to the Russian minister. The official character of the visit was shown by the presence at the station of the Russian ambassador, Prince Orloff and other members of the Russian embassy. They were also present after greetings had been exchanged. Count Lamsdorff was escorted to the Continental Hotel. During the day many calls of courtesy were exchanged. The important conferences between M. Delcasse and Count Lamsdorff being deferred until later. The program of the visit had been changed so as to include a grand dinner at the Elysee palace tomorrow night in honor of Count Lamsdorff. M. Delcasse will give a dinner to the count on the following Friday.

## TROOPS IN THE YOSEMITE.

**GOVERNMENT WILL MAKE A CHANGE IN THE LOCATION.**

YOSEMITE VALLEY, Oct. 28.—The headquarters of the troops stationed to guard and protect Yosemite National Park and "forest preserve" may be moved from Wawona to some point more centrally located. To this end, Lieutenant Fair is now looking over proposed sites near the Crocker ranch, a short distance from Hazel Green, on the Oak Flat route into the Yosemite Valley. Wawona is on the southern edge of the national park and the soldiers have had to travel distances ranging from 30 to 50 miles to get to and from their respective stations. Besides this, there is a lack of suitable level ground upon which infantry drills and cavalry charges can be credibly made. The present site has been a serious handicap to the efficiency of the range service in the park, and the Secretary of the Interior has at length ordered a report on a new situation. Should the government decide to move the troops, the headquarters at Hazel Green would be moved to Soda Springs on the Tuolumne river, which is centrally located and has a nucleus of trails leading off into the best scenic points of the park and the high Sierras.

## WILL TRY TEACHER

There will be a meeting of the committee on rules and regulations of the school department at the Board of Education rooms, Friday evening at 7:30 o'clock for the purpose of investigating the charges against Miss M. J. Shaw, a teacher in the Franklin school, preferred by D. Newsom. Miss Shaw is accused of cruelly treating little Fay Newsom and as a result the child's life is in danger.

## PAINTER SUSTAINS FALL.

Sherwood lives in Alameda and is 35 years of age. He was rendered unconscious by the shock and was removed to the Receiving Hospital, where his injuries were dressed.

## GOVERNOR PARDEE DEMURS.

Governor George C. Pardee has fled a demurrer to an action begun by D. Edward Collins, as a stockholder, for an accounting of the affairs of the Enquirer Publishing Company. The action is directed against Governor Pardee, Henry P. Dalton and G. B. Daniels, whom it is alleged, have misappropriated the funds of the corporation.

## NOT WORKING FOR HEALTH.

**WITNESS MAKES SERIOUS CHARGES AGAINST DELE. GATE SAM P. RKS.**

NEW YORK, October 28.—The first witnesses called in the present trials of Samuel Parks on the charges of extortion was Benjamin Thackara, who, it is alleged, was sent by the Tiffany corporation to see Parks to ascertain why the men employed by it topped working in some buildings in the city last December. Thackara told of his meeting Parks who said, according to the witness: "Tiffany is fine \$500 and if you are not prepared to settle, send Tiffany to see me."

David Frazee, general superintendent employed by the Tiffany studio, told of his interview with Parks in a saloon January 5, when Parks again said that Tiffany was fine \$500. Later in the same day Frazee, accompanied by Louis Schmidt, treasurer of the Tiffany corporation, called on Parks in his own home. Schmidt asked Parks, said the witness, why the fine of \$500 was imposed, and Parks replied:

"I am not in this business for my health and you are getting on easy. Others firms have done business with me and if you don't wish to pay you can fight it like some other firms who changed their minds pretty quick."

"Does this money go to the labor union?" asked Schmidt.

"It goes to Sam Parks," was the reply made by the accused, according to the witness.

"I have lost my health working for a lot of—who would throw me down in a minute if everything did not go right. I am going away soon for my health and after a few months you will not hear of Sam Parks in labor troubles. I've got enough to keep me comfortable during the rest of my life."

Discussing the method of payment, witness quoted Parks as saying that he did not take checks.

Schmidt and the witness then left Parks, saying they would have to consult other members of the corporation and the matter and that Parks would hear from them later.

On cross-examination Frazee admitted that his side had sought Parks "because they had to."

Frazee said he was met when he sought the defendant and that the money goes to Sam Parks. The words were: "The money goes to Sam Parks and a few others."

The witness was excused and the court took a recess.

## EX-CONGRESSMAN IS EXCITED.

WASHINGTON TOWN HAS SECOND BIG FIRE IN ONE WEEK.

TACOMA, Wash., Oct. 28.—The city of Aberdeen had another severe visitation of fire early this morning when flames broke out in the Commercial Block, a large frame and corrugated iron structure with 300 feet frontage. The fire started about 1 o'clock and for a time threatened to sweep away all the business portion of the town, which escaped the fire last week. Sixteen business concerns occupied the Commercial block, many having been burned after being burned out by the other fire.

The postoffice, in an adjoining building, was also destroyed, but the mails and contents of the building were saved. One dwelling house was burned.

Great excitement prevailed as the wind blew from the east, and the fire was estimated at \$150,000. No one was injured.

## BIG BLOCK IS BURNED.

## LABORERS STRIKE

ST. LOUIS, Mo., Oct. 28.—Eight hundred laborers, members of the Laborers' Protective Union, Local No. 10,338 of the American Federation of Labor, have quit work at the World's Fair in response to an order from union leaders.

The walk-out occurred, the men claim, because the Louisiana Purchase Exposition Company has not complied with an agreement made September 15th, when the question of employing non-union laborers was settled.

The Laborers' Union claims to have the endorsement and support of the Central Trades and Labor Union.

## ESCAPE GAUGHT.

SAN FRANCISCO, Oct. 28.—Andrew Metzinger, the trusty who escaped from the City Prison Friday morning by sliding down a rope he had made out of strips of his blanket, was captured on Sutter street today. For his escape he may be sentenced to one year in jail.

## KERN OIL FIELD.

BAKERSFIELD, Cal., Oct. 28.—A canvass just made of the Kern River field for the purpose of preparing a new map shows the existence of 745 completed wells and 49 now in process of drilling. Of these practically all the completed wells are being operated with the exception of a few located on the outskirts of the field which have been virtually abandoned. Two hundred and eighty-six of the completed wells are controlled by an association.

## STOLE HIS TOOLS.

Carl H. Osgood of 1328 1/2 Liberty street reported to the police this morning that almost his entire outfit of carpenter's tools was stolen last night from a building in process of construction at the northeast corner of Twenty-second street. The police are endeavoring to find them and locate the thief.

## CAPTAIN TELLS OF WRECK.

**MASTER OF SOUTH PORTLAND GIVES HIS VERSION OF DISASTER.**

SAN FRANCISCO, October 28.—Captain J. B. McIntyre, master of the wrecked steamer South Portland, has arrived here and made his report to the United States Inspector. In telling his story of the disaster at the office of the owners of the lost steamer, Captain McIntyre said:

"The loss of passengers could not have been avoided. We agreed to leave the steamer together in the boats, all of those who were on board. Mr. Bruce, the chief officer, was to take one boat and I the other. The two boats were simply large to carry the thirty-nine. The boats were lowered together. In my boat were all the passengers but four—four men. These four and the crew were to go in the other boat."

"But as soon as my boat was lowered, and we all were in it, the boat capsized. I and the sailors righted it. I climbed on one boy with me. One car had, and with that we paddled about and picked up seven passengers. The rest sank before our eyes."

"I know the other boat, too, had tipped over in being lowered. But there was nothing I could do, for then I was in the boat and my immediate duty was to save those swimming about me."

"As soon as I had put ashore those saved in my boat, we went back and found the life raft with officer Bruce upon it. It was this raft we towed to Port Orford. We couldn't find the other raft. 'Never has the South Portland carried more passengers than she was licensed to carry. We have had stowaways much to our regret.'

"We struck on Blanco rock at 4:40 p. m. and I was thrown into the water at 5:40—my watch stopped."

Chief Engineer Ward said today that within fifteen minutes after the vessel struck, he found that all the boats were gone, and the captain was not in sight. The engines ran for half an hour later. Several sailors who also reached the shore, he said, were given the morning agree that the steamer floated for half an hour after the captain left, and that his boat could have held more men than were in it.

Conductor Calden and Engineer Hampton were in charge of the passenger train. W. R. Beatty, of 1229 Union street, Oakland, who was with the train, but beyond a shake-up received no injuries.

**ESTIMATE OF SUSPECTS.**

The inquiries made by the police have succeeded in shedding some light upon the transaction which has an element of mystery and treachery peculiarly suggestive of the crimes of a great city. In this light, Heymans and Christopher are represented as being "no good," a discovery credited to Mrs. Colvin who had admitted to the police that she met both of them at the race track four years ago and that she then formed that estimate of the pair.

Mrs. Borland, too, it seems, had prior experience with Heymans and Christopher and confided to the officers that the duo "did not amount to much."

## MRS. COLVIN'S STORY.

The police say that according to the story of Mrs. Colvin, numerous drinks were served in the rooms of Mrs. Borland and her mother, Mrs. Moore, last Thursday night. After a time Mrs. Colvin complained of a severe headache and Heymans suggested that he would go to a drug store and get a headache powder. Heymans, accompanied by Christopher, went to a drug store to get the powder. On the return Mrs. Colvin, who was alone, saw a man enter the room. She claims that she became unconscious and while in that condition she found a diamond bracelet and a diamond ring, the total value of the gems being \$300.

Heymans made a statement to the police and denied that he had taken Mrs. Colvin's ring, and accusations passed between Mrs. Borland, Christopher and Heymans.

Chairman of Detectives Martin informed Mrs. Colvin that he would arrest the persons who had been in the room if she would swear to a criminal. Mrs. Colvin declined to do so, saying that she did not desire any publicity and would try to secure the return of her missing jewelry.

Mrs. Borland then informed the Captain of Detectives that she would pay Mrs. Colvin for the missing brooch and pin. On Thursday afternoon Mrs. Colvin stated must have been taken by Heymans.

## LAST NIGHTS OF ST PATRICK'S FAIR.

Tomorrow night, the fair for the benefit of the Church of St. Patrick, in West Oakland, of which Father McNally is pastor, will come to a close with every prospect of being most successful. The fair has been a pleasant place in which to pass an evening and hundreds of people have availed themselves of the opportunity to meet in social conversation and enjoy the attractions which have been provided by the management. The booths in themselves are a feature of interest because they have been decorated in a very artistic manner and arranged at the same time loaded down with articles of beauty and utility which would be most appropriate in the decoration of a home. Tonight will be the last chance to secure an option of some of the goods remaining on the table, because all of these will have to be disposed of tomorrow night. Father McNally, the pastor, who has been ill during a part of the time the fair has been in progress, has improved and will be able to attend the closing features of the bazaar.

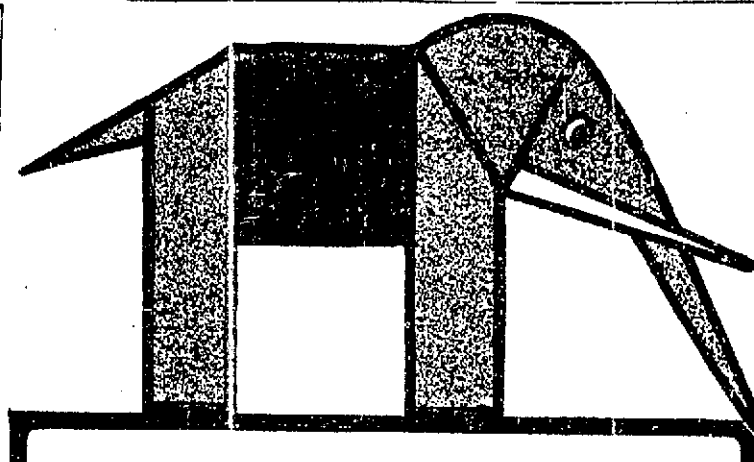

## SAYS FINK HAS NOT PAID PER ALIMONY

In a document filed with the County Clerk today, it is alleged in behalf of Mrs. May E. Fink that her former husband, Alonzo W. Fink, has failed and neglected to pay her \$5 a month alimony for the months of June, July, August, September and October, and prays that he be ordered to show cause why he has not done so.

Mrs. Fink was granted a decree of divorce in the latter part of May, and owing to the lapse of the one year provision of the divorce law at that time, he was enabled to take advantage of it and married a second time. Since then, it is alleged, he has failed to obey the order of the court in the matter of alimony.

Mrs. Borland, too, it seems, had prior experience with Heymans and Christopher and confided to the officers that the duo "did not amount to much."

## MRS. COLVIN'S STORY.

The police say that according to the story of Mrs. Colvin, numerous drinks were served in the rooms of Mrs. Borland and her mother, Mrs. Moore, last Thursday night. After a time Mrs. Colvin complained of a severe headache and Heymans suggested that he would go to a drug store and get a headache powder. Heymans, accompanied by Christopher, went to a drug store to get the powder. On the return Mrs. Colvin, who was alone, saw a man enter the room. She claims that she became unconscious and while in that condition she found a diamond bracelet and a diamond ring, the total value of the gems being \$300.

Heymans made a statement to the police and denied that he had taken Mrs. Colvin's ring, and accusations passed between Mrs. Borland, Christopher and Heymans.

Chairman of Detectives Martin informed Mrs. Colvin that he would arrest the persons who had been in the room if she would swear to a criminal. Mrs. Colvin declined to do so, saying that she did not desire any publicity and would try to secure the return of her missing jewelry.

Mrs. Borland then informed the Captain of Detectives that she would pay Mrs. Colvin for the missing brooch and pin. On Thursday afternoon Mrs. Colvin stated must have been taken by Heymans.

## LAST NIGHTS OF ST PATRICK'S FAIR.

Tomorrow night, the fair for the benefit of the Church of St. Patrick, in West Oakland, of which Father McNally is pastor, will come to a close with every prospect of being most successful. The fair has been a pleasant place in which to pass an evening and hundreds of people have availed themselves of the opportunity to meet in social conversation and enjoy the attractions which have been provided by the management. The booths in themselves are a feature of interest because they have been decorated in a very artistic manner and arranged at the same time loaded down with articles of beauty and utility which would be most appropriate in the decoration of a home. Tonight will be the last chance to secure an option of some of the goods remaining on the table, because all of these will have to be disposed of tomorrow night. Father McNally, the pastor, who has been ill during a part of the time the fair has been in progress, has improved and will be able to attend the closing features of the bazaar.

## SAYS FINK HAS NOT PAID PER ALIMONY

In a document filed with the County Clerk today, it is alleged in behalf of Mrs. May E. Fink that her former husband, Alonzo W. Fink, has failed and neglected to pay her \$5 a month alimony for the months of June, July, August, September and October, and prays that he be ordered to show cause why he has not done so.

Mrs. Fink was granted a decree of divorce in the latter part of May, and owing to the lapse of the one year provision of the divorce law at that time, he was enabled to take advantage of it and married a second time. Since then, it is alleged, he has failed to obey the order of the court in the matter of alimony.

## POLICE UNABLE TO LOCATE MAN WHO KILLED SA-GOUNI.

LONDON, Oct. 28.—The search of the police for the murderer of Sagouni, president of the American revolutionary society in London, who was shot and killed by an unknown assassin in the suburb of Nunhead late Monday evening, had been futile up to noon today. Several foreign revolutionary clubs were raided during the early hours of the morning but with no result.

The inquest opened today, and it transpires that the police yesterday evening were misinformed on the subject of the pistol used by the assassin being an automatic ten-shooter. It is an ordinary five-shot silver-plated revolver, numbered 1056. An important point which is being investigated was that the murderer shot with his left hand.

A member of the Armenian society who described its object as being to free Armenia from Turkish rule, testified that he was with Sagouni when the latter died. Sagouni was unable to identify the murderer as the man he saw on board the boat while coming to England from France, but the society believes he is identical. Sagouni's home was at Baku, Trans-Caucasia.

A verdict of wilful murder was rendered.

## LIVERMORE NEWS OF INTEREST.

LIVERMORE, October 28.—A carload of iron arrived today for the Phoenix Quicksilver Mine. It is to be used in building the retort which is in course of erection. Owing to the broken up condition of the road, it will be difficult to get the mine. The new road, being constructed by John Beck in several places crosses the old one and renders hauling difficult. Superintendent Newhall says he has seventy carloads of freight which he is anxious to have delivered at the mine before January 1 and is offering liberal inducements to teamsters to engage in the work of hauling.

The infant son of George W. Crana died yesterday. The baby has been ill for several weeks. The interment took place today from the Episcopal Church.

W. W. Veale and wife of Brentwood are visiting at the residence of Mrs. Rachel Taylor.

The newly incorporated W. H. Taylor Company will be open for business on November 3.

## SAYS HUSBAND IS CRUEL.

Suit for divorce was begun today by Anna C. Williams against George S. Williams on the grounds of extreme cruelty and intemperance. The couple have been married several years and live in this city. Mrs. Williams charges that the defendant is cruel and addicted to the use of intoxicants to excess and abuses her.

A boxing contest of more than ordinary interest is scheduled for the December show in San Francisco. It will be the Hayes Valley Club's turn to give a professional bout and their attraction reads: Eddie Hanlon vs. Young Corbett. It will be the second meeting between the two and is sure to be one of the most exciting as well as being the most important of the year, not excepting the Jeffries-Corbett fight in August.

The feather weight limit will attract sporting men from all parts of the country and it is safe to predict a crowded house at Mechanic's Pavilion on the evening of December 29, when the two come together. They are to meet at 123 pounds at six o'clock with the alternative of 125 at 3 o'clock on the day of the contest.

Corbett and Hanlon met last spring and after twenty rounds of hard fighting, in which the California boy had the shade the best of it, the contest was declared a draw. Hanlon was right after the champion for another match but the latter was more than anxious and stalled Eddie off by telling him to defeat Benny Yager. Hanlon has done this and now Corbett has been forced to meet the Californian. He has no alternative for Eddie and he is the logical opponent for Corbett and an aspirant for championship honors.

Morris Levy, the matchmaker of the Hayes Valley Club, has been licensing with Ben Jordan of England to meet Corbett but when he secured the champion's consent to meet Hanlon, he immediately cancelled all negotiations with the Englishman. While a match with the latter would be a good drawing card, it is thought that a match with Corbett will be a better one in every respect. It will mean more money for the spectators as well as giving the spectators the possibility of seeing a new champion made.

Hanlon has signed the papers and they have been forwarded to Corbett in the East. He has agreed to everything specified in the contracts so no difficulty or hesitancy is anticipated in having his signature attached. Corbett will reach the coast about the middle of November and will begin training right away.

WERE ACCORDED  
ROYAL RECEPTION.

The members of the Oakland High School track team who went to Ukiah Saturday to meet the high school from that place in a dual track and field meet, are loud in their praise of the reception accorded them. The local boys were met at the train and throughout their entire stay they were shown every courtesy. They were driven about

Robert Fitzsimmons, former champion heavy weight of the world and who still claims to be the champion of the light heavy weights, has taken up his training quarters at Croli's Garden in Alameda and will condition himself at that resort for his fight with George Gardner on November 17. This contest means a great deal to the veteran of many battles and he will spare no effort to get into the very best of condition.

Since his last defeat by Jeffries, the Cornishman has been almost forgotten by the public, and, as admiration is one of the necessities of life to him, he must win from Gardner to regain his prestige. Fitzsimmons has been in training for many years past and he has become so used to it that he cannot do without.

His defeat by Gardner will mean his relegation to the class of prize fighters that are called "has been's" and whose ranks are filled to overflowing. He will never again be able to get a match with a first class man and he will no longer be a public idol.

It is a curious fact but true that there has been one champion pugilist in the past twenty-five years who has quit the ring for good when he was finally defeated and that man was John L. Sullivan, the man who is considered by many to be the greatest fighter that ever lived. Among those who have been champions, been defeated and have tried to regain lost honors are Corbett, Fitzsimmons, Dixon, Ernie, McGovern and a number of others. They have all failed to accomplish the desired end, but somehow they simply cannot give up the idea that they still have a chance.

town and shown all the points of interest. The local athletes went to Ukiah with the opinion that they would have a walkover with Ukiah and were not in the best condition. The result was that they were beaten. At the conclusion of the field day events the local boys were entertained by their conquerors at a banquet and later were the guests at a dance given in their honor.

SURE INDICATIONS  
OF BAD BLOODOLD SORES  
ULCERS  
ABSCESSSES

There is no better evidence of a bad condition of the blood and unhealthy state of the system than a sore that won't heal, or a festering, discharging Ulcer or Abscess. There are many ways by which the blood may become contaminated and poisoned. A long spell of malarial fever or other debilitating sickness, the excessive use of mercury in certain diseases, inactive kidneys and torpid liver, exposure and lack of nourishing food, weaken the constitution and cause the system to become congested with impurities which are taken up by the blood, and wherever the flesh is bruised or scratched a festering sore or discharging ulcer begins. A boil or blister, pimple or burn often develops into a frightful looking sore because of the unhealthy condition of the blood, and the place will continue to grow and spread, finally reaching the bones and causing them to decay unless the blood is purged and purified and the system thoroughly cleansed of all morbid and unhealthy accumulations. This cannot be done with washes, salves and soaps, which only afford temporary relief.

Such things neither make the blood any purer nor the system any cleaner, and to depend upon them alone is suicidal and senseless. The sore or ulcer is only a symptom, an outlet for the poisons circulating in the blood, and as long as it remains impure the sore will never heal. It may scab over and appear to be getting well, but a fresh outpour of matter from the diseased blood starts it again, and thus it goes on, sometimes for years, slowly sapping away the life of the patient.

The only way to get rid of these disgusting evidences of impure blood is to remove the cause by purifying the polluted blood, and nothing does this so surely and effectively as S. S. S. It drives out of the circulation impurities and germs of every kind; and under the tonic effect of this great remedy the general health rapidly recuperates and broken-down constitutions are built up and strength and vigor are restored to all parts of the system. When S. S. S. gets into the circulation, impurities that have been clogging the blood and causing the old sore or ulcer, are driven out through the natural channels of the body, and the place begins to heal, the discharge gradually ceases, new flesh forms and smooth, healthy skin hides all signs of the painful, sickening sore.

S. S. S. is an entirely vegetable remedy, containing both purifying and tonic properties, making it the ideal medicine where the blood is out of order and the health undermined by some previous ailment resulting in chronic sores, ulcers, boils or abscesses.

A sore that does not heal promptly, no matter how small, will bear watching. It is a sure indication of bad blood, and may develop into something far more serious than a common ulcer. It may be Cancer. Through our medical department we are rendering valuable help to those afflicted with sores and ulcers of various kinds. Write us, and our physicians will advise you without charge.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

SIX TARS MUST  
ANSWER CHARGES.

E. W. Sternstein, A. C. DeWitt, Bert White, G. Forrest, M. Birch and J. Collins, who compose the crew of the Neried, one of the boats of the California Yacht Club, have been charged with conducting unbecomingly members of the club and will be called before Commodore George M. Shaw to show cause why they should not be punished.

It is charged that the men indulged too freely in wine, women and song. Allegations go further and say that they were boisterous and public with their tales and showed no regard for the presence of other yachting devotees who were anchored in the vicinity. It is said that the scenes enacted were disgraceful.

Kenton, Ohio, Aug. 22, 1903.  
Some eight years ago a small blister appeared on my upper lip. I tried several local applications in an effort to heal it, but without avail. Finally I consulted a doctor, but the sore did not yield to his treatment. So I consulted another without any better results. The third doctor pronounced it Eczema. The sore in the meantime had spread quite a little and the skin about the sore was discolored. After treating it for Eczema and not getting any better, the doctor pronounced it Epithelioma Cancer, and advised that I go to Chicago and have it out. I did not do this, but having had S. S. S. recommended to me by a couple of friends, I began its use, and the sore soon began to heal, and after using some six bottles of the medicine it healed up entirely, and has never returned. Several years have elapsed since its disappearance. JOHN L. SAMS.

I was the victim of a severe burn, having stepped into a crucible of molten iron. My right foot to the shoe top was fearfully burned. You can get an idea of its severity by my telling you that I was unable to walk for months. I suppose my blood was bad, as the place did not seem to heal. Getting discouraged at the slow progress towards recovery, I decided to use S. S. S. and am pleased to say that the medicine did its work well. It went into the circulation, thoroughly cleansed and enriched my blood, and in due time the affected area began to heal. To-day it is entirely healed, and S. S. S. deserves great credit for what it did for me. 120 Pearson St. CHARLES HUNTER.

The annual election of officers of the West Oakland Athletic Club took place last Monday evening and the following were elected for the ensuing year: William D. Dunbar, president; C. L. Wines, vice president; A. F. Wines, secretary; Directors: E. C. Cooker, Charles E. Simpson, J. T. Drew, Wm. Halloran, Lawrence O'Rourke.

It was decided to try and greatly increase the club membership and the rolls are now open and the initiation fee has been removed until fifty additional members have come in. The directors have decided to continue to have no series dues as before for the members, which was \$2 per month. The matter of the club has been secured in a strike and the next boxing night which is to be held on November 3, the club consists of the usual four-round bouts.

ATHLETIC CLUB  
ELECTS OFFICERS.

At Weing, the much-heralded Buffalo wonder lasted just a round and a half against Joe Millet of San Francisco at the Reliance Athletic Club last evening. The spectators of the brief contest were left one of two conclusions, either Weing is very much overrated or he is physically and mentally unfit to enter the ring. The majority of those present were inclined to the former view and think it was simply a case where one man was completely outclassed by the other.

Millet did not show the performance of last night for he had no occasion to show any skill. Not once was he called upon to block a blow and all he had to do was to land rights and lefts on the Buffalo man as fast as he could work his arms.

Weing came to the coast with a reputation as a fighter and a man with an enormous appetite for punishment. It was claimed for him that he could not be beaten down out. At it was never asserted that he was a boxer in any sense of the word but just a fighter, pure and simple. He failed ignominiously to live up to the reputation which had been sent to him before him.

The club itself is equally blameless for the miserable exhibition that was given the spectators and no one in the large crowd, that was present, thought of holding the management responsible. The match was made in good faith and had Weing been able to display even a semblance of the ability credited to him, the fight would have been a rare treat; but he didn't and it would be an insult to the name to call the exhibition a boxing contest.

There were a number who believed that Weing is crazed and demented by the incessant beatings he has received in the past and is simply a wreck. For several days prior to yesterday there were a few bets made, even money but yesterday the odds ranged rapidly and in a short time the Weing end went begging on the short end, a 2 to 1 proposition. This had a queer look to many and leads to the belief that someone knew beforehand how the affair was going to end.

When the men entered the ring Millet looked in the pink of condition and every inch a fighter. He looks like a second edition of Champion Jeffries, only smaller. He has the same strong punch and back and has a strong left hand look very much the same as the champion. Weing did not show up near so well in comparison. He looked soft and flabby and out of condition.

In the first exchange Millet landed a right hand punch on the point of the jaw which practically ended the fight. It was a hard blow and Weing was completely dazed. He staggered around and made no attempt to hit Millet, in fact never lost consciousness. He fought the entire round and a half, a few seconds after the fight had started Weing was sent to the mat for the first time and after that it was a case of get up and be knocked down again. His arms were scrambled right to his feet but he was all at sea and groggy. Four knock-downs were the total for the first round.

During the minute's rest Weing sat in his corner in a daze. He saw and heard nothing. His eyes had a vacant look and seemed to be bulging out of his head. When the two came together for the beginning of the second round Weing was down with a punch on the jaw and he was soon up again. He was floored again the next punch, a right hand one to the jaw, was the last that Millet landed. Weing went to the floor and was down until the count of eight. He managed to get up on his feet and he advanced toward his opponent, who was at the other end of the ring waiting for Weing to get on his feet. He fell again, being unable to stand. He could not even hold his head up and at the count of six he was down on the floor in an effort to get off his face, but could not.

At this point Referee Smith ended the affair by declaring Millet the winner and leading Weing to a trainer. The latter refused about the ring and a drunken man said he had only just begun to get warmed up. He was crazy mad when told that the referee had ended the contest and turned on everyone in the ring and he was driven from the ring to his dressing room by the police. In the dressing room he refused to be consoled and declared that he would challenge Jeffries.

The four round curtain alser proved to be the best exhibition of the evening. It went the limit and Jack Evans was given the decision over his dusky opponent, Fred Turner. Evans had all the best of it but as no stamina was shown in a still punch which he delivered accidentally in the jaw and came near ending the contest. The bout was a laughable one.

The bout between George Brown and Jack Carter was ended in the fifth round by the referee, who disqualified Carter for refusing about the ring and repeated warning. The Stockton man doubled up and covered his head with his gloves almost all the time. Brown was by far the best and would have knocked his man out in short order if he would stand up and fight.

TROUBLE ENSUES OVER  
THE COLLECTION OF MONEY

Complaint was made yesterday by J. Salisbury of Niles to the District Attorney that Constables Rodrick and Vandervort had thrown him down in Sneeden's drug store at Niles and taken \$100 away from him, and he also wished to sue to a complaint for their arrest.

When asked about the matter the constables stated that Salisbury was owing a San Francisco firm the money and that he was learned he was to collect it and they were there to garnish it. Salisbury got the money while the proceedings were under way and stuffed it into his pocket. Not to be outwitted in this way, they took it away from him. The constables were upheld in their action.

At Portland—  
No game on account of rain.

Hard luck is still pursuing the Oakland baseball team and yesterday they lost another close game. The Recruits outbatted the Senators almost two to one, but the Senators seemed to have more than their share of luck and finally noised out in the ninth inning on a misplay of Cooper's. Knell pitched good ball and with the exception of the fifth inning he kept the hits well scattered.

In the game at Seattle yesterday between Henry Harris' Stars and the Seattle baseball errors were as plentiful as runs. The Stars took the lion's share of the former and the Swashes got the majority of the latter. The grounds were wet and slippery, making good playing out of the question. In the sixth inning Whalen got gay and disrupted the decision by the umpire. He was fined \$5 and, as he did not cease the disturbance, he was fired out of the game and grounds.

J. Fluvius Esq. took possession of the ball grounds at Portland yesterday so that no game was played between the Browns and the Angels.

Rockenfield played shortstop for Lohman yesterday and he had a stormy time of it. He had four chances and one was an assist, while the other three went into the error column. At least that is what he himself by batting out a home run with a man on third.

Captain Dillon of the Los Angeles team has received instructions from Manager Morley to protest every game this week. When the Portland team goes to the field, Hollingsworth will not be allowed to play. It is expected that there will be trouble. Hollingsworth jumped a contract with Morley early in the season to play with the opposition, and was later signed by Portland against the rule of the league.

San Francisco is now only four points ahead of Seattle and it begins to look as if the Stars will come back from their recent trip in either fourth or fifth place.

PORTLAND ELEVEN  
WILL BE STRONG

Captain McMullan has practically decided that the Multnomah Club team, of Oregon, that will come to Oakland to play the eleven of Berkeley and Stanford universities will be as follows:

George McMullan, captain and right half; George Keller, center; Robert Greive, substitute center; Thomas Ross, left guard; A. Horan, substitute right guard; Martin Pratt, right tackle; Roy Kirkley, left tackle; Floyd Cook, left end; Edward Dowling, right end; Bert Kerrigan, quarterback; Marion Dolph, left half; Dave Jordan, substitute end and half; Roland Johnson, substitute quarter; W. B. Fechner, left end and substitute.

Chet Murphy, the old Stanford quarterback-back, has about decided that he will be unable to leave his work, although it is still hoped he may be yet persuaded to make the trip.

COYNE ELECTED  
TRACK CAPTAIN.

An election was held at the Oakland High School yesterday by the track association to elect a new track captain for the ensuing year. After a spirited contest, in which there were several candidates, the honor fell to Tom Coyne, a member of the relay team.

The choice is a popular one as Coyne stands well with both students and faculty. He runs the third relay in the member of that team when it broke the United States inter-scholastic relay record for the mile, making it in the last time of 3:21.

Upon the new captain devolves the task of appointing the new manager for the track team and it is thought that Coyne will name Vernie Sheehan for the place. Sheehan is the 440-yard sprinter. He achieved prominence by winning the 440-yard dash in the last year. He is a fast day and in the dual meet with Ukiah won the event in the last time of :53.

## WILL RETURN TO THE TURF

Clarence Mackay's personal return to the turf is viewed with great satisfaction by the prominent members of the racing fraternity. Like August Belmont, Mr. Mackay had thought of giving up his favorite diversion, but has been induced to forego the decision in deference to sporting interests generally.

A large crowd was in attendance yesterday to watch the Berkeley eleven defeat the Alumni team of which four of the old California players, Greisberg, Kaarsberg, Whipple and Hall were on the famous 22-0 and 30-0 teams in 1898 and 1899 that won the gridiron competition with Stanford, whereby the bronze statue of the football player, was brought to stand under the oaks near the Berkeley oval.

The game was something of a disappointment as an example of the present varsity team's capabilities. Of the Alumni men, Ellis who was brought from Ventura County to participate, and Gendotti and the four veterans were men with some vaunting experience, while five of the so-called Alumni were simply former second eleven material.

The Alumni team of course was at the colossal disadvantage due to lack of physical training. It was merely by individual strength that the former invincibles repeatedly stopped the varsity's attempts at line bucking. California scarcely gained a foot inside tackles during the whole game. The varsity made a natural slip, producing no more than eighty plays.

The varsity made one touch-down early in the first twenty-five minute half.

Overall had most his supervision at last in the famous old gridiron hero, Greisberg. He hustled Overall about persistently and again and again, aided by Whipple made an opening between Overall and the varsity left half. The former was then tackled by Kaarsberg, who made the varsity's attempts at line bucking. Kaarsberg, who made the varsity's attempts at line bucking, practically punctured the supposed strongest part of the varsity defense and that without any less than work.

Kaarsberg revived old times by attempting two of his famous old tricks, which however availed little as the adversaries were on the lookout for his moves. Several times on Overall's knees, Kaarsberg made the varsity's left half. It was good football, but fruitless, for Hall was stopped each time ere he had gone more than a few yards. He also tried his old fake kick trick and almost got clear for an open field past one end.

The varsity made four very bad fumbles, two partly due to Sneadger. Jack Whipple's rival for captain of the team in the big game, Little Mini, the varsity left half, did not show to advantage in his plays directed toward Jim Whipple and Hall.

Geary at quarter was the strong ground gainer, making several brilliant plays, but more was better, showing his coolness and experience in passing and holding his men together.

The line-up in yesterday's Alumni-Varsity game was as follows:

Jack Johnson had very little trouble in disposing of Sam McVey before the Century Club of Los Angeles last evening. The contest went the limit of twenty rounds and Johnson received the decision because he out-fought McVey at every stage of the contest.

Johnson displayed all of the cleverness which has made him noted and he inflicted terrific punishment on his opponent. He emerged from the contest practically unmarked. McVey's showing was a disappointment to his friends who looked for something more than was shown by the Oakland man.

## THE EARLY ORANGE AND ITS ENEMIES.

The papers published south of Tehachapi are again slandering Northern California oranges, as they call all oranges grown north of Bakersfield. They have to admit that the oranges grown in Butte, Yuba, Sacramento, counties are first in the market, are of good size and bright-colored, but they insinuate that the fruit is sour and unfit to eat. They do not believe this, but they say so to prejudice Eastern visitors against this section of California and the citrus fruits grown in it.

This campaign of detraction of all that portion of the State lying north of Tehachapi was begun when a citrus fair was held in Sacramento in 1886. Then they asserted that all the good oranges exhibited were brought from Los Angeles and vicinity and shown under false labels. They ridiculed the assertion that oranges could be successfully produced in this latitude, and indulged in the most shameless and bare-faced falsehoods regarding this section. Alleged descriptive literature was sent out broadcast from Los Angeles containing pictures of "Northern California in Winter," depicting such climatic conditions as are found in New England and Northern New York.

This campaign of falsehood and detraction has lessened somewhat in virulence of late years, but it has never entirely ceased. It is still the settled policy south of Tehachapi to knock all other sections of the State, and to claim that everything produced in California worth having comes from the restricted areas below the San Fernando tunnel. It is not malice that prompts this, but unprincipled selfishness—the desire to gain an advantage at any sacrifice of truth, justice and decency.

While this section has never depended upon the orange as a staple, orange growing has become an extensive industry in a dozen counties of Central and Northern California. No finer oranges are produced in the world than those grown in Sacramento, Butte and Placer counties. The splendid oranges set before the guests at the Palace Hotel come from the Harrington orchard in Colusa county, Tulare, Kings, Fresno, Merced and Stanislaus counties produce as fine oranges as are grown in Riverside, and each year are shipping larger quantities to market. Last year over 2,000 cars of oranges were shipped out of the San Joaquin valley. More than 700 cars went out of Butte. As for north as Redding, in Shasta county, the navel orange is found flourishing in the yards.

In the face of this invincible demonstration, the same old mocking, derisive refrain comes up from below Tehachapi. Mention a Sacramento orange to a Southern California editor and he immediately screws up his face as though he had the colic or splits his other lung in a loud haw-haw of affected incredulity. "Orange oranges, I presume," he will ask with a contemptuous grin. And then he will ask if they grow on gourd vines or crab apple trees. The wit of Southern California is almost as harrowing as its cough.

And why do the people south of Tehachapi so sharply resent orange growing in other sections of the State? Simply because the oranges grown in the group of counties of which Sacramento is the center cannot be excelled for quality and color, and ripen from six weeks to two months earlier than the oranges of Southern California. The orange crop of Butte is fully harvested by the time orange picking fairly begins in Riverside. The oranges of Tulare and Kern are from three to four weeks ahead of those produced on the other side of the Mohave desert. As a vast acreage is being planted to oranges in the extended region between Bakersfield and Colusa, the market for Southern California oranges is being threatened by an earlier crop, a crop that gets the cream of the holiday trade and the highest prices. That is the milk in the coconut. It is more profitable to grow oranges in the central foothill counties than it is to grow them in the Riverside district. Land and water cost less, and better prices are obtained. Hence the labored lying in the one-lung district.

These naval employees who got broke for squandering government funds in Nagasaki appear to have found the Geisha fully as attractive as they have been painted by partial tourists.

The news that diamonds are going up is rather sad for people who desire to make a shine at the opera when Patti comes again. It will be hard on those who will have to wear more clothes and fewer diamonds.

When Sir Henry Irving landed at first inquiry was as to whether Dowie was in New York. He probably does not relish the presence of another first class theatrical attraction while he is in town.

At least Chamberlain and Balfour have succeeded in proving that Great Britain is declining in commercial greatness.

## CANADIAN POLITICS AND THE ALASKAN AWARD.

While there is doubtless much real disappointment in Canada over the Alaskan boundary award, a very large proportion of the outcry is purely for domestic political effect, the opposition severely taking the Liberal administration to task for losing in the controversy. Yet those who are leading the pack in denunciation never expected Canada to win, and did not hesitate to say so, though of course in predicting defeat they laid the blame in advance upon the Laurier government. They well knew that if the dispute were ever adjudicated by any impartial tribunal Canada was bound to lose.

Politicians as a rule do not care about the rights or wrongs of a case of this kind, however, when an opportunity is presented for making political capital. This is particularly true of Sir Charles Tupper, who is laboring to make a political issue of the boundary award because he hopes to take Sir Wilfrid Laurier's place at the head of the Dominion government in case of a Liberal defeat. He predicted that the arbitration would go against Canada unless all the commissioners were tried and true Canadians, which was equivalent to saying Canada must lose unless her commissioners stood for the Canadian contention right or wrong. But the only chance for Canada that lay in such a policy was in the hope of a compromise that would give the Dominion an outlet to the sea through American territory. This hope could not be entertained if there was to be a judicial interpretation of the treaty between Great Britain and Russia defining the boundary.

It had been previously demonstrated that the dispute could never be settled by Canada appointing commissioners selected to decide one way without regard to the facts. Canada has a treaty-making power, and the treaty whose terms were in controversy was entered into by Great Britain with another power than the United States. Great Britain was thus obligated to enforce the terms of her own compact, despite the factious opposition of her stiff-necked tributary. Repeated failures of attempts to adjust the boundary question with the Ottawa government admonished the State Department that it must deal direct with the treaty-making power if the controversy was to be brought to a determinative issue on any fair basis.

It was only under pressure from the home government that Sir Wilfrid Laurier consented to arbitrate with a British jurist as a member of the commission. The Ottawa government was given to understand that it must yield in this matter or the British Foreign Office would take the matter up independently and settle the dispute in its own way. It is more than probable that he selection of Baron Alverstone, Lord Chief Justice of England, was dictated in London, and this fact is in all likelihood the basis of the accusation that Canadian interests were sacrificed to secure American friendship for Great Britain. Sir Wilfrid Laurier, the Canadian premier, more than hinted that Baron Alverstone's selection was forced on him when he said he would make the official correspondence public prior to the next general election.

Laurier could not help himself. The commissioners of his selection not only stood out to the end for Canada's contention, but refused to concur in the award in a public manifesto which gravely reflected on Baron Alverstone's fairness and judicial integrity. Sir Wilfrid Laurier himself bitterly said Canada should be allowed to make her own treaties in future, intimating thereby that the Dominion could not get justice from the mother country. He overlooked the fact, however, that this was not a treaty at all, but the interpretation of a treaty entered into by Great Britain with Russia before the Dominion was formed, and when the whole northwest was virgin territory. He in fact assumed that the Dominion had the right to alter or abridge the terms of a treaty entered into before it had a political existence.

Sir Charles Tupper understands the situation perfectly, and knows that Sir Wilfrid Laurier did all he could to snatch a slice of valuable territory from the United States, for his father in vain tried to induce the United States to concede Canada the head of Lynn canal. He is well aware of the attitude assumed by the home government, but he thinks Laurier's tongue is tied by his official position, and consequently thinks he is quite safe in charging the Liberal administration with betraying the interests of Canada.

Some foolish person in New England proposes to place an export duty on cotton to make it cheaper for manufacturers in this country than for those abroad, whereat the Atlanta Constitution grows red in the face and denounces the suggestion as a Yankee trick to keep the South poor. It appears to be real mad about it, too. But it need not lose its temper. The Constitution man may keep his shirt on without fear of the South being hurt by a tax on cotton or anything

else produced in the South. Article Five of Section 9 of the Federal constitution says: "No tax or duty shall be laid on articles exported from any state." Let it go at that. There is no need to call out the militia and whistle o the dogs. The Georgia Majors can go on eating goobers and lynching niggers without fear of Northern aggression on the cotton crop. The way to settle that pestiferous Yankee manufacturer, who apparently knows more about Barbara Fritchie than he does about the organic law of his country, is to hand him a copy of the constitution and dare him to kick a lung out of it.

## MORE EXORBITANT DEMANDS.

Prospects for the Panama Canal do not grow brighter. Instead of abating in their exorbitant demands, the Colombian politicians have raised the price of the concession from \$20,000,000 to \$25,000,000, and also demand the right to exact \$10,000,000 from the French concessionaires.

Evidently they take Colonel Watterston very seriously. The Kentucky editor recently asserted that the \$40,000,000 to be paid by the United States for the French concession was to be equally divided between American promoters and politicians and the stockholders of the Panama concession. This declaration, although unsupported by proof, has added zest to the appetite of the hungry statesmen of Colombia, who are as credulous as they are greedy.

These political harpies understand the temper of the American people no more than they appreciate the difference between blackmail and fair dealing. This country will not give a penny more than \$10,000,000 for the canal concession. Our government will not permit itself to be stood up in this way, be made the victim of a gigantic scheme of graft, as it were.

If the Colombians persist in their absurdly exorbitant demands, the United States will be compelled to adopt the Nicaragua route. In that case the concession for a canal at Panama will not be worth twenty cents, let alone twenty millions. The isthmus will cease to be a commercial highway, and become more than ever a stagnated pesthole.

Tom Johnson says he does not hope to be elected, but merely expects to cut down the Republican majority in Ohio. As the Republican majority was 90,000 at the last election, Johnson's expectation can be gratified without inconveniencing the Republicans.

## Hints for the Ladies.

Highly decorated canisters both for tea and coffee are among the useful and ornamental articles for kitchen use.

Tiny metal sprinkling pots are among the novelties that are shown on the notion counters, and when one pulls the handles out comes a tape measure.

Felt shoe brushes are now much used and are said to be much superior to those made of bristle. They are to be had in the shops for a small sum.

Cereal sets are among the articles dear to the heart of the housekeeper, who likes an artistic kitchen. They come in decorated pottery, set in shelves, and cost from \$15 to \$18 a set.

Curtain frames for stretching lace curtains now come with adjustable pins, a decided improvement over the old kind which had stationary pins.

For felling out hollow cheeks and causing the blood in the face to circulate freely is a small glass cup with a rubber bulb attached, which is displayed on the counters for only a quarter.

Handbags of red leather are now lined with handsome brocade silk, and have pockets fitted with a tiny red purse, a silver-topped vinaigrette and a small mirror and can be purchased from \$8 up.

A small wooden Japanese house is sold for ten cents, and on closer investigation is found to be full of orange wood toothpicks. A small knob on the tiny door of the house is the means whereby a small drawer containing the toothpicks is pulled out.

One of the fads of the hour is the hair made of cherries. Rows upon rows of cherries are sewed on a wire frame and the result is very handsome. This hair in all shades is to be found in the department stores for ten cents a yard.

Ribbons are very beautiful and come in all sorts of styles. One handsome ribbon of sash width shown is of heavy white moire silk, having raised velvet disks scattered over it about as large as a cent. These disks are in a lovely shade of pink.

The economical woman who lifts her ashes will find a new ash sifter in the shops that does away with much of the labor and all of the dust. It is a rotary sifter set in a large tin. One side opens to admit the ashes, the cover is then closed and it is turned by a crank like a rotary churn.

Among the handsome and costly buttons shown for corsage decoration are these of pink coral surrounded by a row of brilliant. These buttons are over an inch long and the coral is of a shape, the same style of button is also shown having a turquoise center.

For an eructation on the face caused by high winds, nothing is better than a cold cream made of London, half cream white wax, half grain; almond oil, few drops sulphur precipitated, four drops violet extract, twenty drops. Moil lard in and wax in a double boiler, then add other ingredients slowly, stirring all cold. Apply a little of this emulsion, rubbing it in well with tips of fingers.

At what age does a woman become an old maid? The limit is now set at 20; in other words, 30 is the imaginary line which separates the term of splendorhood into halves. The first portion being that of eligibility to matrimony, and the second that of forced or voluntary resignation to single blessedness. Nowadays there are no "old maids." In the sense in which the word was once used and the idea that marriage is the chief aim of woman no longer exists in the minds of sensible people.

To make soap jelly gather together all the bits of soap from the wastebasket and pound them to powder. Put on the stove with enough water to cover them and add one tablespoonful of olive oil to one cup of powdered soap. Heat all together. Pour into a wide-mouthed jar to cool into jelly. If the jelly becomes too stiff repeat it and add a little more olive oil. Keep a jar of this soap jelly on the washstand and use occasionally when you want a good lather for hands, arms or neck.

## CHINESE EDITOR AT EBELL.

### SOCIETY WOMEN LISTEN TO AN INTERESTING LECTURE AT CLUB ROOMS.

At the meeting of the Eboll Club yesterday afternoon Ng Poon Chu, editor of a Chinese daily paper, published in San Francisco, presented his view of the future of the Chinese race in a very interesting talk.

"I am very glad to be here," he said, addressing the club. "I felt a little queer at first as though I were in the wrong box somehow, but after I had been introduced to the ladies, I felt better. I felt better. Now I shall begin this talk with a little anecdote. There was found once the body of an unknown man. It was taken to a fashionable undertaker, who took great pains to make it look as good as possible, all the while with an eye on the fee. The well-dressed young man called to see the body again, but the muscles of the face had relaxed and the mouth dropped open. 'This is not my uncle,' exclaimed the young man. 'My uncle had two gold teeth. He then walked out. The undertaker was furious and shaking his fist in the face of the corpse, he said, 'You old fool, why didn't you keep your mouth shut?'"

The newspaper business is much like that, much work and little pay. Yet I have always noted that it is the people who work the hardest who get the least money. Take the editor, for instance. NEWS FROM BERKELEY AND THE STATE UNIVERSITY

MAY ARREST UNIVERSITY AUTHORITIES. SUPERINTENDENT OF STREETS TURNER DECLARES THAT THE LAWS OF BERKELEY HAVE BEEN VIOLATED.

BERKELEY, October 28.—Not only are the authorities of the University of California meeting with opposition from property owners in proposing to establish stables on the Hillside tract but will probably have to account for violating the ordinances of the Town of Berkeley. The trouble was caused by the removal of the building at the corner of Alston Way and Barrow street the proposed location of the barns, and the closing, by a fence, of a portion of Sylvan Way.

Superintendent of Streets Turner is now in consultation with Town Attorney Brewster A. Hayne in regard to the violation of the municipal law and it is now probable that warrants will be issued for the arrest of the university men who are directing the removal of the college barns from Strawberry Creek.

"It the Town Attorney deems it advisable I shall apply for warrants immediately," said Superintendent of Streets Turner this morning. "In my opinion Superintendent of Grounds A. L. Bolton has no right to fence in Sylvan Way or remove the building at Barrow street and Alston Way. Both of these acts are contrary to the municipal law and I think I will have no difficulty in securing the warrants."

Last evening Turner applied to Justice of the Peace Edgar for warrants declaring that "if the University authorities did not comply with his demands to have the building replaced and the fence removed he would have the papers served. But Justice Edgar said that if the warrants were issued they would have to be served, and recommended a consultation with the Town Attorney."

Justice of the Peace Edgar had a lively time in his court today. Frank Amiot, a laundry owner who has often been under arrest on charges of battery and disturbing the peace, was brought in by Officer Pickett for having created a disturbance in South Berkeley. His case was set for trial for November 30, and in lieu of \$100 cash bail he was taken back to jail.

Thomas Rutherford, who has been sought for by the police for several days on a warrant sworn to by his father-in-law, C. H. Chapman, gave himself up to Officer Pickett. According to the complaint Rutherford fought him when ordered from his home where he had gone to see Mrs. Rutherford, Chapman's daughter. He gave a bond for \$50 to insure his appearance in court next Thursday morning, when he will be arraigned.

Steve Bonner, a youth charged with disturbing the peace of Guyum Aram, was brought into court and his bail fixed at \$5. He will appear Thursday morning or arraignment.

Enlarged photographs of the recent fire are now on display at the studio of Clark, the Shattuck avenue photographer. He is engaged in doing considerable work for the students of the University of California.

Assessor Wells to have a new dwelling. BERKELEY, October 28.—Assessor J. W. Wells has sold his residence at 1606 Delaware street and is now erecting a new six room, two-story home on Berkeley way near Grove street.

ULTIMATUM IS STUDY OR SING. BERKELEY, October 28.—Hereafter the pupils of the Berkeley High School will not be compelled to sing at the regular assembly held every morning upon the opening of the school in the large auditorium.

The new rule is the result of inattention on the part of a number of boys who will now be sent to the study room.

BERKELEY, October 28.—A number of noted speakers will address the students at the pajama party to be held in the Greek theatre on the University campus tomorrow night.

Among those who will address the fantastically garbed collegians are Regent Charles Wheeler, Professor Frank Soule, S. E. Wright, of the class of 1903; M. E. Deutsch, '02; Assemblyman William H. Waste, '03; and Orrall Overhill, '04.

Before dancing around the bonfire in the pit of the theatre, the students will execute a serpentine dance on the stage. The Seniors, attired in Turkish caps, as well as pajamas, will take the lead, followed by the Juniors in green sashes, the Sophomores will wear red and the Freshmen, the University colors.

GRINDERS DEMAND INCREASE. NEW YORK, October 28.—Lens grinders employed by the opticians in this city have demanded an increase of pay and are organizing a union to get it. The grinders now get \$18 a week, as ask for \$21. Quite a number of highly skilled workmen already have struck on their own account, without waiting for their union to complete its organization.

Opticians say an advance in the price of eye glasses has been made, because the wholesale price of materials also is to be advanced November 1.

MARK DANIELS WRITES A SUCCESSFUL FARCE FOR JUNIOR DAY THEATRICALS.

BERKELEY, October 28.—Out of fourteen curtain raisers submitted, the Junior farce committee has selected a skit entitled "A record Proposal" for presentation on Junior Day. The farce was written by Mark Daniels, a student who has shown considerable histrionic ability in college theatricals.

The plot of the curtain raiser is entirely original and the catchy plot will make a clever accompaniment for "McInnis, the play written by Emil Krushke for presentation of Junior Day.

RIDER COLLIDES WITH TEAM.

FRANK DAVIS OF WEST BERKELEY RENDERED UNCONSCIOUS IN ACCIDENT.

BERKELEY, October 28.—Frank Davis of 1909 Ninth street was badly hurt in a collision with a vehicle while riding his bicycle down University avenue last night. The accident occurred at the intersection of the street with the tracks. Davis was thrown from his bicycle and landed on his head. He was taken to the office of Dr. C. F. Gladding who was compelled to work on the man for some time before he could restore his senses.

"Did you ever love before you met me?" she eagerly asked the dulcet "No, darling," he replied, "you are the only girl I ever knew who had the money to buy me a new coat."

BERKELEY, October 28.—The regular meeting of the Executive Committee of the Associated Students of the University of California last night it was decided to secure more assistance for Trainer Walter Christie. The work will probably be assigned to members of the student body.

The bill is presented for the Freshman rally showed that the wood for the bonfire cost but \$12 as compared with \$140 for last year. The affair of last year was made expensive on account of the fact that the collegians were compelled to pay for the wood they had stolen and pay the damages resulting from train-holdup.

WRITE A NEW COLLEGE SONG. BERKELEY, Oct. 28.—The latest song submitted to the student body for approval, has been written by J. R. Dutton of the class of 1903. The words of the song are:

THE CALIFORNIA COLORS. Hail to our colors, our glorious colors; Hail to the blue and the gold O'er the hopes and ambitions of dear dear California. Their rich blended beauties untold.

CHORUS. Then hail, hail, hail! Hail to the gold and the blue: They gladden the sight as they float in the light. Inspiring all hearts to be true, Inspiring all hearts to be true.

Hail to the blue of the wide-spreading ocean. Of the flowers that bloom by our Hail to the bright golden rays of the morning. That streak o'er the Berkeley hills. Hail to the star-spangled blue of the heavens. That blend o'er the Golden State; Hail to the rich, mellow light of the covered gate. That gleams through the Golden Gate.

QUARTER MILLION WANTED FOR BUILDING.

University Will Ask for a Large Appropriation at Next State Legislature.

BERKELEY, October 28.—Although the next session of the State Legislature will not convene for more than a year, the University of California has decided to ask, beside its regular maintenance appropriation, a quarter of a million dollars for the erection of an agricultural building. The proposed new building is one of the most urgently needed on the Berkeley campus, the present wooden structure being greatly inadequate for the immense volume of work that is being carried on by the department.

At a recent conference of the Building and Grounds Committee of the Board of Regents looked into the situation and at first believed it expedient to reconstruct the sheet iron museum building on the Hillside tract. But this plan was soon dropped, giving way to the more permanent scheme of a stone building.

The agitation for a new building has gone so far that as a result of consultations by President Wheeler and Director Eugene W. Hilgard, Supervising Architect John Galen Howard has already commenced to study the plans of some of the leading and Middle West colleges of agriculture. It has been estimated that \$250,000 would erect a handsome and commodious structure in the construction of the Heaver Memorial Mining building and the new California Hall.

According to the Board plans for the greater University of California, the new Agricultural building would occupy a site 200 by 400 feet in dimensions at the northeast corner of Oxford street and Alston way.

ROOTERS SIGN FOR TICKETS. BERKELEY, October 28.—The receiving of 28 names from the Medical College of the State University has brought

the number of rooters who have signed up for the intercollegiate football game to 640. It is expected that similar lists will be received from the other Affiliated Colleges before the close of the next list on November 5th.

The seats of the big game will be placed on each side of the field and those who will be given the first opportunity to purchase the tickets will be the members of the Associated Students. About 1000 seats will be reserved for the rooters. All those who sit in the California section will be compelled to wear the regulation rooters hats of blue and gold.

MUSICIANS WILL NOW ENTERTAIN. BERKELEY, October 28.—After months of practice, the University orchestra has decided to give a grand concert in Hearst Hall on the evening of December 1st. The orchestra has had an average attendance of 25 at the rehearsals. It has been held during the reorganization of the musicians at the opening of the term. At the time of the concert the orchestra will be filled out with a few instruments not to be found among the students.

DEBATING TRYOUTS ARE HELD. BERKELEY, October 28.—As a result of the preliminary tryouts for the selection of the Freshman debating team of the University of California, the following have been selected to enter the debates: N. F. F. Buck, Jr., H. G. McKinnay, E. M. Peixoto, E. B. Johnson and T. H. Buckingham. The final debate to determine the personnel of the team that will meet the Sophomores will be held next Friday afternoon.

They visited Boston, New York and Philadelphia and enjoyed the trip very much. Craigie Sharp, of the Oakland Mercantile Exchange, was in town last week on business connected with the exhibit at St. Louis Fair. Robert Davis of Montclair, New Jersey, was admiring the many attractions of this valley last week. Henry L. Hansen, a son of Captain Peter Hansen of this place, was the guest of his father last week. Mr. Hansen is of Oroville, Butte county, and his residence in this part of the country was the bringing down of a convicted prisoner. Alex Silva of Newark visited relatives in town on Tuesday. breaks chains with his hands, shatters cobbles stones at one blow of the fist, lifts 725 pounds with his teeth and does all kinds of things which are simply marvellous. The women sisters are winning much well-merited praise and applause. Their songs and dances are new, novel and entertaining. Barney Bennett is pleasing everybody with his witty black monologues. He has new jokes, funny sayings and eccentricities every night. Gardner and Stoddard are a very interesting and entertaining sketch team. Miss Stoddard is beautiful and clever and Mr. Gardner is a comedian of rare ability. His fun-making being of a clean and refined order. Florence Boyce, the graceful little dancer, is making a hit. She is quite pretty and petite. Ben Brown's illustrated songs are still in favor, and the moving pictures are all new. Idera Park is situated on Telegraph avenue near Fifty-seventh street. Take Telegraph avenue car.

STEVENS GREAT IN "BILL SYKES" Owing to the previous engagement by the Town orchestra to-night, there will be no performance by the Landers Stevens dramatic company at the Macdonough Theatre, Oakland, this week. The Stevens' engagement will be resumed, however, tomorrow night, when there will be a continuation of the presentation of Dickens' great play "Oliver Twist." The reason of this dramatized story of the great English novelist used by Mr. Stevens is the character instead of the most of every best known. It makes the most of every character of the delineation. Mr. Stevens' work receives the appreciation of the audience. Miss Gertrude Woodthorpe, a very capable actress plays "Nancy" with a vim and intelligence which leave nothing to be desired.
